

ADHIL ASHARAF

Linux System Administrator

Pathanamthitta, Kerala | +91 85905 40298 | adhilasharaf07@gmail.com | linkedin.com/in/adhil-asharaf

PROFESSIONAL SUMMARY

Linux System Administrator with expertise in server administration, virtualization (Proxmox, Docker), networking, and automation scripting. Led OnApp-to-Proxmox migration (100+ VMs), developed NIC firmware automation (Intel/Mellanox/Broadcom), and manage 50+ enterprise clients with 99.9% SLA compliance. Skilled in CI/CD (GitHub Actions, Argo CD), version control (Gitea, GitHub), and agentic AI coding (opencode, Claude).

TECHNICAL SKILLS

Operating Systems: Ubuntu, CentOS, RHEL, Rocky Linux, Debian, Windows Server 2016/2019/2022
Linux Admin: systemd, LVM, RAID, systemctl, journalctl, user/group management, permissions, cron, apt, yum, dnf
Automation/Scripting: Bash, Python, NIC firmware scripts (Intel/Mellanox/Broadcom), awk, sed, grep, rsync
Virtualization/Containers: Proxmox VE, Docker, VM migration, OnApp deprecation, EasyDCIM, KVM
CI/CD & VCS: Git, Gitea, GitHub, GitHub Actions, Argo CD
AI Tools: opencode, Claude
Networking: TCP/IP, DNS, DHCP, OSPF, EIGRP, NAT, VLANs, VPN, iptables, SSH, tcpdump, nmap, dig
Monitoring/Security: Zabbix, Grafana, top, htop, vmstat, fail2ban, SELinux, system hardening
Web Servers: Apache, Nginx, Caddy, cPanel, Plesk, SMTP/IMAP/POP3, SSL/TLS
Hardware/Storage: Server provisioning, hardware diagnostics, benchmarking, onsite maintenance, iSCSI, multipathing
Backup/Recovery: tar, dd, rsync, disaster recovery, Proxmox backup
Tools: vi/vim, nano, lsof, find, fdisk, parted, logrotate

PROFESSIONAL EXPERIENCE

Hashroot Limited, Kochi
L2 Server Administrator | Feb 2026 – Present

- Lead onsite server setup/maintenance for 50+ enterprise clients (99.9% uptime SLA)
- Developed automated NIC firmware update script (Intel/Mellanox/Broadcom) with documentation, reducing manual time by 80%
- Primary escalation point for complex Linux/Windows infrastructure issues
- Manage physical servers: hardware integrity, RAID, iSCSI, multipathing, operational continuity

L1 Server Administrator | Jan 2026 – Feb 2026

- Handled server support across Linux (Ubuntu, CentOS, RHEL) and Windows Server environments
- Diagnosed/replaced faulty hardware (HDD, RAM, RAID controllers), reducing downtime 40%
- Performed performance benchmarking with automated scripts to identify bottlenecks
- Troubleshoot OS/network/application issues; documented solutions for knowledge base

Junior Server Administrator | Jan 2025 – Jan 2026

- Led OnApp-to-Proxmox migration: 100+ VMs with zero data loss
- Provisioned/managed VMs on Proxmox VE with resource optimization and HA clustering
- Provisioned bare-metal servers with Linux distributions and Windows Server editions
- Implemented backup strategies; monitored logs for proactive issue detection

Server Administrator Intern | Nov 2024 – Jan 2025

- Managed 200+ client domains on Linux web servers (Apache, Nginx, Caddy) via cPanel/Plesk
- Performed automated backups, site migrations, SSL certificate management
- Monitored performance using Zabbix/Grafana; configured email services (SMTP/IMAP/POP3)

Synnefo Solutions, Kochi
Network Support Engineer Intern | Jan 2023 – April 2023

- Configured routing protocols (OSPF, EIGRP), DHCP, DNS, NAT for enterprise networks
 - Managed Windows Server 2022: Active Directory, Group Policy, user management
 - Designed IPv4 addressing with VLSM subnetting; configured firewall policies (iptables)
-

EDUCATION & CERTIFICATIONS

Bachelor of Computer Application | 2019 – 2022 | Mahatma Gandhi University, Kerala
Higher Secondary | 2019 | Mary Matha Public School, Kerala
Certifications: Network Engineering (Synnefo Solutions) | Docker Foundations Professional Certificate (LinkedIn)
